Thanks Bill.

Once we have results compiled, I will be glad to share them. They will be numerical.

Steve

Subject: Pavillion 2012 QC Samples (1204021) Data Package

Attached are the laboratory report and associated data in electronic format for your laboratory service request 1204021 / laboratory project 1204021. Feel free to contact me if you have any questions.

Steve,

These samples were analyzed in conjunction with the Pavillion field samples. Same processing, same analytical procedures, etc. Therefore, the VOC analysis has the same technical issues as the Pavillion samples, and all results are qualified as estimated.

We are always interested in knowing how we do on PT samples and would appreciate it if you could share the results with us. Acceptable / Unacceptable would work, but numerical results are preferred. Thanks.

Bill
